

**Do not file this return on  
paper.**

**Illinois law requires  
Form RMFT-5-US to be  
submitted electronically.**

**Use MyTax Illinois,  
available at  
[mytax.illinois.gov](http://mytax.illinois.gov), to file  
your return.**

Step 1: Identify yourself

Do not write above this line.

Name, Reporting period, Address, Receiver license number, Telephone number, City, State, ZIP

Note: All calculations of tax are based on gallon measurements (i.e., a liquid gallon, a gasoline gallon equivalent, or a diesel gallon equivalent). For more information, see instructions for each column.

Column 1 Gasoline and special fuel
Column 2 Other fuels

Step 2: Figure your total gallonage for the month

1 Enter your actual (stick) inventory at the beginning of the month. This amount must agree with closing inventory of preceding month's return.
2 Enter the number of invoiced gallons produced, acquired, received or transported into Illinois during the month
a Tax/fee-free invoiced gallons
b Tax/fee-paid invoiced gallons
3 Add Lines 1 through 2b and enter the result on Line 3. Remember to do calculations within each column.
4 Enter your actual (stick) inventory at the end of the month.
5 Subtract Line 4 from Line 3 and enter the result on Line 5. This is your total gallonage for the month.

Step 3: Figure your nontaxable gallonage

6 Enter the number of gallons sold exempt in Illinois
a to railroads for direct rail operation
b to qualified ships, barges, and vessels
7 Enter the number of gallons sold and delivered outside of Illinois
8 Enter the number of gallons sold and distributed tax/fee-free to licensed receivers
9 Enter the number of gallons of your loss due to temperature variation or evaporation or your gain due to temperature variation. Complete Line 9a or 9b per column.
a Loss. The amount of losses you claim are limited. See instructions.
b Gain.
10 Add Lines 6a through 9b and enter the result on Line 10. This is your total nontaxable gallonage.
11 Subtract Line 10 from Line 5 and enter the result on Line 11. This is your gross taxable gallonage.

Step 4: Figure your net taxable gallonage

12 Enter the number of gallons on which the tax/fee was paid at the time of purchase.
13 Subtract Line 12 from Line 11 and enter the result on Line 13. This is your net taxable gallonage by fuel type.
14 Add Line 13, Column 1, and Line 13, Column 2, and enter the result on Line 14. This is your net taxable gallonage.

Step 5: Figure your tax and fee

15 Figure your gross tax and fee due. Enter the amount from Line 14 on the line provided below and multiply by the tax and fee rates provided.
a For underground storage tank tax: Line 14 X Rate.
b For environmental impact fee: Line 14 X Rate.
c Add Lines 15a and 15b. This is your gross tax and fee due.
16 If you qualify for the discount, multiply Line 15c by the applicable rate. (See instructions.)
17 Subtract Line 16 from Line 15c and enter the result on Line 17. This is your tax and fee due.
18 Enter the amount of credit you wish to apply. (See instructions.)
19 Subtract Line 18 from Line 17 and enter the result on Line 19. This is the amount you owe.
