

This letter concerns tax imposed on tangible personal property transferred incident to sales of service. See 86 Ill. Adm. Code Part 140. (This is a GIL.)

December 31, 2007

Dear Xxxxx:

This letter is in response to your letter received in this office on May 7, 2007 in which you request information. The Department issues two types of letter rulings. Private Letter Rulings ("PLRs") are issued by the Department in response to specific taxpayer inquiries concerning the application of a tax statute or rule to a particular fact situation. A PLR is binding on the Department, but only as to the taxpayer who is the subject of the request for ruling and only to the extent the facts recited in the PLR are correct and complete. Persons seeking PLRs must comply with the procedures for PLRs found in the Department's regulations at 2 Ill. Adm. Code 1200.110. The purpose of a General Information Letter ("GIL") is to direct taxpayers to Department regulations or other sources of information regarding the topic about which they have inquired. A GIL is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120. You may access our website at www.tax.illinois.gov to review regulations, letter rulings and other types of information relevant to your inquiry.

The nature of your inquiry and the information you have provided require that we respond with a GIL. In your letter you have stated and made inquiry as follows:

Would you please comment on the taxability of the following scenarios:

A Texas based company contracts us for the following services. The Texas based company provides us with a list of job openings that they currently need filled. Our invoices for the following services will be sent to the company's Texas Headquarters.

1. We provide the Texas Company with a 'Sourcer' who we bill at a flat monthly fee. The Sourcer will canvas the internet, trade publications, and other sources for resumes that match to the job vacancies. The Sourcer will provide resumes to a project manager. The Sourcer is located in India and the resumes are sent to a project manager in Illinois.
 - A. Would this be a taxable service in Illinois.
2. We also provide the Texas Company a 'Recruiter' who we bill at a flat monthly fee. The Recruiter receives the resumes from the Sourcer to contact the potential candidates for job interviews and negotiation purposes. The Recruiter then forwards the Project Manager a small group of resumes. The Recruiter is located in India.

- A. If the Recruiter interviews or negotiates with a person in Illinois, would this be taxable?
- 3. The Texas Company hires a candidate from the list of resumes provided by the Sourcer or Recruiter, our firm receives a flat fee for each hire.
 - A. If the job is located in Illinois would the fee be taxable?
- 4. If these services are not taxable would we be required to register for a Sales Tax License?

DEPARTMENT'S RESPONSE:

Your letter does not provide sufficient facts and information for us to determine whether your Company has nexus in Illinois; and, as a result, we cannot respond to your specific inquiries. Whether a company has nexus affects a company's Illinois tax obligations. The Department declines to make nexus determinations in the context of Private Letter Rulings or General Information Letters because the amount of information required to make such determinations is often best gathered by an auditor. However, the following information outlines the principles of nexus. We hope it is helpful to you in determining your Company's tax obligations.

The Illinois Retailers' Occupation Tax Act imposes a tax upon persons engaged in this State in the business of selling tangible personal property to purchasers for use or consumption. See 86 Ill. Adm. Code 130.101. In Illinois, Use Tax is imposed on the privilege of using, in this State, any kind of tangible personal property that is purchased anywhere at retail from a retailer. See 86 Ill. Adm. Code 150.101. These taxes comprise what is commonly known as "sales" tax in Illinois.

An "Illinois Retailer" is one who either accepts purchase orders in the State of Illinois or maintains an inventory in Illinois and fills Illinois orders from that inventory. The Illinois Retailer is liable for Retailers' Occupation Tax on gross receipts from sales and must collect the corresponding Use Tax incurred by the purchasers.

Another type of retailer is the retailer maintaining a place of business in Illinois. The definition of a "retailer maintaining a place of business in Illinois" is described in 86 Ill. Adm. Code 150.201(i). This type of retailer is required to register with the State as an Illinois Use Tax collector. See 86 Ill. Adm. Code 150.801. The retailer must collect and remit Use Tax to the State on behalf of the retailer's Illinois customers even though the retailer does not incur any Retailers' Occupation Tax liability.

The United States Supreme Court in *Quill Corp. v. North Dakota*, 112 S.Ct. 1904 (1992), established the current guidelines for determining the nexus requirements that must be met before a person is properly subject to a state's tax laws. The Supreme Court has set out a 2-prong test for nexus. The first prong is whether the Due Process Clause is satisfied. Due process will be satisfied if the person or entity purposely avails himself or itself of the benefits of an economic market in a forum state. *Quill* at 1910. The second prong of the Supreme Court's nexus test requires, if due process requirements have been satisfied, that the person or entity have a physical presence in the forum state to satisfy the Commerce Clause. A physical presence is not limited to an office or other physical building. Under Illinois law, it also includes the presence of any agent or representative of the seller. The representative need not be a sales representative. Any type of physical presence in the State of Illinois, including the vendor's delivery and installation of his product on a repetitive basis,

will trigger Use Tax collection responsibilities. Please see *Brown's Furniture, Inc. v. Wagner*, 171 Ill.2d 410, (1996).

The final type of retailer is the out-of-State retailer that does not have sufficient nexus with Illinois to be required to submit to Illinois tax laws. A retailer in this situation does not incur Retailers' Occupation Tax on sales into Illinois and is not required to collect Use Tax on behalf of its Illinois customers. However, the retailer's Illinois customers will still incur Use Tax liability on the purchase of the goods and have a duty to self-assess and remit their Use Tax liability directly to the State. In such instances, those customers must remit their Illinois Use Tax along with a completed Form ST-44, Illinois Use Tax Return, unless they are otherwise registered or are required to be registered with the Department and remit their Illinois Use Tax with a Form ST-1, Illinois Sales and Use Tax Return. Many retailers that do not have nexus with the State have chosen to voluntarily register as Use Tax collectors as a courtesy to their Illinois customers so that those customers are not required to file returns concerning the transactions with those retailers.

Illinois Retailers' Occupation and Use Taxes do not apply to sales of service that do not involve the transfer of tangible personal property to customers. However, if tangible personal property is transferred incident to sales of service, this will result in either Service Occupation Tax liability or Use Tax liability for the servicemen depending upon his activities. For your general information see of 86 Ill. Adm. Code 140.101 through 140.109 regarding sales of service and Service Occupation Tax.

Under the Service Occupation Tax Act, businesses providing services (*i.e.* servicemen) are taxed on tangible personal property transferred as an incident to sales of service. See 86 Ill. Adm. Code 140.101. The purchase of tangible personal property that is transferred to the service customer may result in either Service Occupation Tax liability or Use Tax liability for the servicemen depending upon his activities. The serviceman's liability may be calculated in one of four ways: (1) separately-stated selling price of tangible personal property transferred incident to service; (2) 50% of the servicemen's entire bill; (3) Service Occupation Tax on the servicemen's cost price if the servicemen are registered de minimis servicemen; or (4) Use Tax on the servicemen's cost price if the servicemen are de minimis and are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Using the first method, servicemen may separately state the selling price of each item transferred as a result of the sale of service. The tax is then calculated on the separately-stated selling price of the tangible personal property transferred. If the servicemen do not separately state the selling price of the tangible personal property transferred, they must use 50% of the entire bill to the service customer as the tax base. Both of the above methods provide that in no event may the tax base be less than the servicemen's cost price of the tangible personal property transferred. See 86 Ill. Adm. Code 140.106.

The third way servicemen may account for their tax liability only applies to de minimis servicemen who have either chosen to be registered or are required to be registered because they incur Retailers' Occupation Tax liability with respect to a portion of their business. See 86 Ill. Adm. Code 140.109. Servicemen may qualify as de minimis if they determine that the annual aggregate cost price of tangible personal property transferred as an incident of the sale of service is less than 35% of the total annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphics arts production). Servicemen no longer have the option of determining whether they are de minimis using a transaction by transaction basis. Registered de minimis servicemen are authorized to pay Service Occupation Tax (which includes local taxes) based upon their cost price of tangible personal property transferred incident to the sale of service. Such servicemen should give suppliers resale certificates and remit Service Occupation Tax using the

Service Occupation Tax rates for their locations. Such servicemen also collect a corresponding amount of Service Use Tax from their customers, absent an exemption.

The final method of determining tax liability may be used by de minimis servicemen that are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act. Such de minimis servicemen handle their tax liability by paying Use Tax to their suppliers. If their suppliers are not registered to collect and remit tax, the servicemen must register, self-assess and remit Use Tax to the Department. The servicemen are considered to be the end-users of the tangible personal property transferred incident to service. Consequently, they are not authorized to collect a "tax" from the service customers. See 86 Ill. Adm. Code 140.108.

I hope this information is helpful. If you require additional information, please visit our website at www.tax.illinois.gov or contact the Department's Taxpayer Information Division at (217) 782-3336. If you are not under audit and you wish to obtain a binding PLR regarding your factual situation, please submit a request conforming to the requirements of 2 Ill. Adm. Code 1200.110 (b).

Very truly yours,

Richard S. Wolters
Associate Counsel
