

RUT-50 Private Party Vehicle Tax Chart for 2009

Effective January 1, 2009, through December 31, 2009

The purchase price (or fair market value) of a vehicle determines which tax table to use. The purchase price is the value given for a vehicle and may be in the form of money, credit, property, or service. When there is no stated purchase price, such as in the case of a gift or even trade, the fair market value should be used. The fair market value may be obtained from a licensed dealer.

Note: A trade-in deduction is **not** allowed on this tax.

Other transaction types that may be reported on Form RUT-50 are listed below along with the required tax amount due.
