General Information

What is the purpose of Schedule INS?

The purpose of Schedule INS, Tax for Foreign Insurers, is to allow you to possibly reduce your Illinois income and replacement tax liability. Effective for tax years **ending on or after December 31, 1999, and on or before December 31, 2000**, if you are a foreign insurer, whose state or country of domicile imposes a retaliatory tax and a lower income tax liability on insurers domiciled in Illinois, you should complete this schedule to determine if it would reduce your tax liability. The rates are reduced to the point that the total Illinois tax imposed equals the tax the state or country of domicile would impose on the amount of your Illinois net income. The reduction in tax rates cannot reduce the total of your income and replacement

taxes, privilege tax, fire insurance taxes, and fire department taxes below 1.25 percent of your premiums subject to privilege tax. The rate reduction is applied against income tax first. Once your income tax is reduced to zero, the rate reduction is applied against replacement tax.

If you are a member of a unitary business group, you must complete Schedule UB/INS.

Specific Instructions

Part I is used to report the income tax (or other tax based on net income) your state or country of domicile would impose on your Illinois net income.

Part II is used to figure your 1.25 percent income tax reduction limit.

Part III is used to determine whether your liability can be reduced and, if so, the levels to which your liability can be reduced.

Parts IV and V are used to figure your credit for replacement tax paid and any excess credit that may be carried forward.

What must I attach to Schedule INS?

If you do not check the box on Line 4, you must attach a pro-forma return from your state or country of domicile, showing the amount of tax you would owe to that state or country on your Illinois net income.
