Schedule 4255 Instructions

Who must file?

You must file Schedule 4255 if you claimed an investment credit against your Illinois income or replacement tax liability in a previous year, and any of the property considered in the computation of that investment credit becomes disqualified.

You must recapture any such investment credit in the year in which the property becomes disqualified (to the extent the credit was actually used in any previous year). Use this form to figure the amount of recaptured credit that you must add to this year's tax liability. You **must** file a separate Schedule 4255 for each tax year in which the now-disqualified property was placed in service, beginning with the earliest year. Only list items of property placed in service within the same tax year. You must attach all completed Schedules 4255 to your return.

 You may **not** amend a previous year's return in order to exclude the disqualified property.

When does property cease to qualify?

Enterprise Zone Investment Credit — Property ceases to qualify if, within 48 months of placing it into service, you dispose of the property or move it outside an Illinois enterprise zone.

Replacement Tax Investment Credit — Property ceases to qualify if, within 48 months of placing it into service, you dispose of the property or move it outside of Illinois. In addition, property becomes disqualified if it is used for purposes other than manufacturing, retailing, coal mining, or fluorite mining within 48 months after being placed in service. Property placed in service on or after January 1, 1994, also becomes disqualified if it is converted to personal use, or if you are no longer primarily engaged in manufacturing, retailing, coal mining, or fluorite mining.

High Impact Business Investment Credit — For tax years ending on or before December 31, 1996, property ceases to qualify if, within 48 months of placing it into service, you dispose of the property or move it outside of Illinois.

High Impact Business Investment Credit — For tax years ending on or after January 1, 1997, the disqualification criteria changes for the High Impact Business Investment Credit. If you entered into an agreement with a taxing district and were granted a tax abatement and you relocate your entire facility in violation of the terms and length of the contract under Section 18-183 of the Property Tax Code, you must recapture the amount of credit previously received under the agreement.

Property is "disposed of" if it is sold, exchanged, traded-in, abandoned, retired from use, destroyed by casualty, stolen, or transferred as a gift. Property is not "disposed of" if it is mortgaged or used as security for a loan, unless it is converted to a non-qualifying use.
