

**What's new for 2000?**

- Effective for tax years **ending on or after December 31, 1999**, the manner in which income from patents, copyrights, trademarks, and similar items of intangible personal property is treated changes for Illinois sales factor purposes.
- Effective for tax years **ending on or after December 31, 2000**, only sales are used to figure the apportionment factor.
- Effective for returns due **on or after January 1, 2001**, the late-payment penalty, late-filing penalty, and interest have changed. In addition, a new bad check penalty has been established. For more information, see "What are the penalties and interest?"

General Information**Who must file Form IL-1041?**

You must file Form IL-1041 if you are a fiduciary of a trust or an estate and the trust or the estate

- has net income or loss as defined under the Illinois Income Tax Act (IITA), regardless of any deduction for distributions to beneficiaries; or
- is a resident of Illinois, is required to file, or files a federal income tax return (regardless of net income or loss). (See "Nonbusiness income allocable to Illinois" under "Definitions to help you complete your Form IL-1041.")

Note: "Grantor" trusts are not required to file Form IL-1041. Estates do not pay replacement tax.

If the trust or estate is a charitable organization exempt from federal income tax by reason of the IRC, Section 501(a), it is not required to file Form IL-1041. However, unrelated business taxable income, as determined under IRC, Section 512, is subject to tax (without any deduction for the Illinois income tax) and must be reported on Form IL-990-T, Illinois Exempt Organization Income and Replacement Tax Return, instead of Form IL-1041. For further information, see Form IL-990-T instructions.

It is your duty as a taxpayer to obtain forms. Failure to obtain them is not an excuse for failure to file returns as required by law.

How do I register my business?

If you are required to file Form IL-1041 and you are the owner of a business, you should register by filing Form NUC-1, Illinois Business Registration. To receive Form NUC-1, see "What if I need additional assistance or forms?" for our phone numbers and addresses.

Registering with the Illinois Department of Revenue (IDOR), **prior to filing the return** ensures that your tax returns are accurately processed and that you receive the appropriate forms.

Your identification number as an Illinois business taxpayer is your federal employer identification number (FEIN).

When should I file?

Your Illinois filing period is the same as your federal filing period. In general, Form IL-1041 is due on or before the 15th day of the **4th** month following the close of the tax year.

Automatic six-month extension — We grant you an automatic six-month extension of time to file your fiduciary tax return. You are not required to file Form IL-505-B, Automatic Extension Payment, in order to obtain this automatic extension. However, if you expect tax to be due, you must use Form IL-505-B to pay any tentative tax due in order to avoid interest and penalty on tax not paid by the original due date of the return. An extension of time to file your Form IL-1041 is not an extension of time for payment of Illinois tax.

Additional extensions beyond the automatic extension period — We will grant an extension of more than six months **only** if an extension of more than six months is granted by the Internal Revenue Service (IRS). You must attach a copy of the approved federal extension to your Form IL-1041.

Where should I file?

Mail your Form IL-1041 to

ILLINOIS DEPARTMENT OF REVENUE
PO BOX 19009
SPRINGFIELD IL 62794-9009

When should I pay?

Payment of tax — You must pay your Illinois income and replacement tax in full on or before the original due date of the return. This payment date applies even

though an automatic extension for filing the return has been granted.

Estimated tax payments — **For state purposes, trusts and estates are not required** to make estimated payments, although they may be required to make **federal** estimated payments. You may, however, make such payments on Form IL-1120-ES, Estimated Income and Replacement Tax Payments for Corporations, and include them on Form IL-1041, Part II, Line 4.

Do not use Form IL-1040-ES, Estimated Income Tax Payments for Individuals, to make these payments. Doing so may delay the processing of your return.

Who should sign the return?

The Form IL-1041 must be signed by the fiduciary of the trust or estate. If there are two or more joint fiduciaries, the signature of one will comply with the requirements of the IITA. The signature verifies by written declaration (and under penalties of perjury) that the signing fiduciary has personally examined the return and the return is true, correct, and complete. The fact that a fiduciary's name is signed to a return is *prima facie* evidence that the fiduciary is authorized to sign the return on behalf of the trust or estate.

Any person, except a fiduciary of the trust or estate, paid to prepare the return (other than a regular, full-time employee of the taxpayer, such as a clerk, secretary, or bookkeeper) must provide a handwritten signature, date the return, and write the preparer's taxpayer identification number. If the preparer is an employee or partner of a firm or corporation, the preparer must also provide the firm's name, address, and instead of the preparer's taxpayer identification number, the preparer must provide the firm's FEIN. Self-employed preparers must check the "self-employed" box and provide their own name, address, and taxpayer identification number in the appropriate spaces.

Note: If your return is not signed, any overpayment of tax is considered forfeited if, after notice and demand for signature, you fail to provide a signature within three years from the date your return was filed.

What are the penalties and interest?

Penalties and interest — You owe a **late-filing penalty** if you do not file a processable return by the extended due

date, a **late-payment penalty** if you do not pay the tax you owe by the original due date of the return, and a **bad check penalty** if your remittance is not honored by your financial institution. Interest is calculated on tax from the day after the original due date of your return through the date you pay the tax.

We will bill you for penalties and interest. For more information about penalties and interest, see Publication 103, Uniform Penalties and Interest. To receive a copy of this publication, see "What if I need additional assistance or forms?" for our phone numbers and addresses.

What if I am discontinuing my business?

Terminated — If you are the fiduciary of a trust or estate that has terminated during any tax year, you are still required to file the tax return. Also, we will pursue the assessment and collection of taxes if

- the trust or estate was liable for income and replacement tax, for that or any previous tax period; or,
- the beneficiary had income allocable to Illinois and was liable for income and replacement tax, for that or any previous tax period, due to a distribution from the trust or estate.

Sales or transfers — If you are a fiduciary that, outside the usual course of business, sells or transfers the major part of any one or more of

- the stock or goods which you are in the business of selling,
 - the furniture or fixtures of your business,
 - the machinery and equipment of your business, or
 - the real property of your business,
- you or the purchaser must complete and send us Form NUC-542-A, Notice of Sale or Purchase of Business Assets, no later than 10 days after the date the sale took place. Mail this form, along with copies of the sales contract and financing agreement, to Illinois Department of Revenue, Bulk Sales Section, P.O. Box 641155, Chicago, Illinois 60664-1155.

Request for prompt determination — If you are an estate that has terminated, you may make a request for prompt determination of liability. Before you can make this request, you must file a return with us. If your request is properly made, the expiration of the statute of limitations (absent fraud) will not extend beyond 18 months from the date of your request. Mail your request to Illinois Department of Revenue, P.O. Box 19044, Springfield, Illinois 62794-9044.

What if I need to correct or change my return?

Corrected — If you need to correct or change your return after it has been filed, but before the automatic extension due date has passed, you must file a corrected Form IL-1041. Mark the form "CORRECTED" at the top and show the changes. Any correction made may cause a recalculation of penalties and interest.

Amended — If you need to correct or change your return after it has been filed, and the automatic extension due date has passed, you must file Form IL-843, Amended Return or Notice of Change in Income, showing the changes.

State changes only — If you discover an error on your Illinois return that does not relate to any error on your federal return but was caused by

- a mistake in transferring information from your federal return to your Illinois return,
 - failing to report to Illinois an item that has no effect on your federal return, or
 - a mistake in another state's tax return that affects the computation of your Illinois tax liability,
- you must file Form IL-843, promptly.

If you are filing Form IL-843 to claim an overpayment, it must be filed within three years after the extended due date, date the return was filed, or one year after the tax giving rise to the overpayment was paid, whichever is latest.

Federal changes only — If you have been notified by the IRS that they have made changes to your return due to an error, or as a result of an examination, you must file Form IL-843. This includes any change in your federal income tax liability; any tax credit; or in the computation of your federal taxable income as reported for federal income tax purposes if the change affects any item entering into the computation of net income, net loss, or any credit for any year under the IITA. You must file Form IL-843 no later than 120 days after the changes have been agreed to or finally determined.

If you are filing Form IL-843 to claim an overpayment, it must be filed within two years after the date such notification was due (regardless of whether such notice was given). For further information, see Form IL-843 instructions.

What records must I keep?

You must maintain books and records to substantiate any information reported on your Form IL-1041. Your books and records must be available for inspection by our authorized agents and employees.

Do the IDOR and the IRS exchange income tax information?

The IDOR and the IRS exchange income tax information for the purpose of verifying the accuracy of information reported on federal and Illinois tax returns. All amounts you report on Form IL-1041 are subject to verification and audit.

Should I round?

To make it easier for you to figure your tax, you may round the dollar amounts on Form IL-1041 and accompanying schedules to whole-dollars. To do this, you should drop any amount less than 50 cents and increase any amount of 50 cents or more to the next higher dollar.

What if I have a federal net operating loss (NOL) carryforward?

If you have a federal NOL carryforward from any loss year ending **prior to** December 31, 1986, it is subtracted on Part I, Line 4g, to the extent not previously used for Illinois purposes. The subtraction is limited to Illinois **base** income in the year you are claiming the carryforward. For further information, see Part I - specific instructions for Line 4g.

What if I have an Illinois net loss deduction (NLD)?

If you have an Illinois NLD from any loss year ending on or after December 31, 1986, it is subtracted from and limited to your base income allocable to Illinois.

To determine your "Illinois net loss" start with federal taxable income, without regard to any federal net operating loss deduction (NOLD), and apply all addition and subtraction modifications and all allocation and apportionment provisions.

Effective for loss years **ending on or after December 31, 1999**, the Illinois NLD provisions are decoupled from IRC, Section 172. All Illinois net losses must now be carried back 2 years (unless an election is made to only carry forward such loss), then forward 20 years, which is the same as the general rule under the current version of IRC, Section 172. However, the special rules under IRC, Section 172, and future amendments to that section will no longer apply to Illinois net losses.

Illinois net losses in tax years **ending prior to December 31, 1999**, are allowed as a carryback or carryforward deduction only in the manner allowed under IRC, Section 172.

Note: You may make the election to forgo the Illinois NLD carryback period by checking the box below Part III, Line 1a. This election must be made by the extended due date of the loss year return. **Once made, the election is irrevocable.**

If you are carrying forward an Illinois NLD, you must complete Illinois Schedule NLD, Illinois Net Loss Deduction, and claim the deduction on Part III, Line 1b. See the Part III, Line 1b, instructions.

If you have an Illinois net loss for this tax year, you must file Form IL-1041 reporting the loss in order to carry back or carry forward the loss to another year.

If you need further information, write to Illinois Department of Revenue, Legal Services Office, Senior Counsel - Income Tax, 5-500, 101 West Jefferson Street, Springfield, Illinois 62702, and request the Illinois Income Tax Regulations, Sections 100.2050 and 100.2300 through 100.2330.

What is the standard exemption?

The standard exemption is \$1,000 multiplied by a fraction, in which the numerator is your base income allocable to Illinois and the denominator is your total base income. If you have a change in your tax year end and the result is a period of less than 12 months, the standard exemption is prorated, based on the number of days in the tax year. If this is your first or final return, you are allowed the full-year standard exemption. If you need further information, see IITA, Section 401(b).

Definitions to help you complete your Form IL-1041.

Resident means

- an individual who is present in Illinois for other than a temporary or transitory purpose;
- an individual who is absent from Illinois for a temporary or transitory purpose but who is domiciled in Illinois;
- the estate of a decedent who at his or her death was domiciled in Illinois;
- a trust created by a will of a decedent who at his or her death was domiciled in Illinois; or
- an irrevocable trust, whose grantor was domiciled in Illinois at the time the trust became irrevocable. For purposes of this definition, a trust is irrevocable to the extent that the grantor is not treated as the owner of the trust under IRC, Sections 671 through 678. For a more detailed explanation of "domicile" and "resident," see Form IL-1040, Illinois Individual Income Tax Return, General Instructions.

Nonresident means a person who is not a resident of Illinois, as defined previously.

Note: In the following definitions, all references to "income" include losses.

Illinois base income means federal taxable income modified by additions and subtractions in Part I of Form IL-1041. See specific instructions for Part I.

Business income means income arising from transactions and activities in the regular course of your trade or business, after any related deductions. It includes income from tangible and intangible property if the acquisition, management, and disposition of the property are integral parts of your regular trade or business operations.

Nonbusiness income means all income other than business income or compensation. For more information about the different types of nonbusiness income, see the instructions for Illinois Schedule NB, Nonbusiness Income.

When is business income allocable to Illinois?

If the trust or estate is a resident, all income received, regardless of source, is allocable to Illinois.

If the trust or estate is a nonresident and business income is derived

- wholly inside Illinois, the entire amount of business income is allocable to Illinois;
- wholly outside of Illinois, none of business income is allocable to Illinois;
- inside and outside of Illinois, complete Illinois Schedule NR, Nonresident Computation of Fiduciary Income, Part II. See the instructions for Part II.
- from partnerships and other fiduciaries, the business income may be allocable to Illinois. See the Illinois Schedule K-1-P, Partner's or Shareholder's Share of Income, Deductions, Credits, and Recapture, furnished by the partnership or the Illinois Schedule K-1-T, Beneficiary's Share of Income and Deductions, furnished by the other fiduciary to determine what income is allocable to Illinois.

When is nonbusiness income allocable to Illinois?

If the trust or estate is a resident, all nonbusiness income is allocable to Illinois.

If the trust or estate is a nonresident, items of income and deduction which constitute nonbusiness income are allocable to Illinois according to the following rules:

- **Interest and dividend income** received by a nonresident fiduciary is not allocable to Illinois.

- **Net rents and royalties**

Real property — Rents and royalties from real property are allocable to Illinois if the property is located in Illinois.

- **Tangible personal property** — Rents and royalties from tangible personal property are allocable to Illinois to the extent the property is used in Illinois. The extent of use of tangible personal property in a state is determined by multiplying the rents and royalties derived from the property by a fraction, in which the numerator is the number of days of physical location of the property in the state during the rental and royalty period in the tax year and the denominator is the number of days of physical location of the property everywhere during all rental or royalty periods in the tax year.

- **Patent and copyright royalties** are allocable to Illinois to the extent the patent or copyright is used in Illinois. A **patent** is used in Illinois to the extent that it is employed in production, fabrication, manufacturing, or other processing in Illinois or to the extent that a patented product is produced in Illinois.

A **copyright** is used in Illinois to the extent that printing or other publication originates in Illinois.

- **Gains and losses** from sales or exchanges of real or tangible property are in Illinois if the property is located in Illinois at the time of the sale or exchange. Gains or losses from the sale or exchange of intangible personal property are not allocable to Illinois.
- **Income from partnerships and other fiduciaries** paid to the trust or estate is allocable to Illinois as if the trust or estate received it directly. See the Illinois Schedule K-1-P furnished by the partnership or the Illinois Schedule K-1-T furnished by the other fiduciary to determine what income is allocable to Illinois.
- **Illinois State lottery winnings** received by a nonresident fiduciary are allocable to Illinois.
- **Other unspecified items** of income or deduction of a nonresident taxpayer are not allocable to Illinois.

What does taxability (taxable) in other states mean?

Taxable in other states means a trust or estate is subject to and pays "tax" in another state. "Tax" includes net income tax, franchise tax measured by net income, or franchise tax for the privilege of doing business. A trust or estate is considered taxable in another state if that state has jurisdiction to subject it to a net income tax even though that state does not impose such a tax. This definition is for

purposes of allocating nonbusiness and apportioning business income inside or outside Illinois.

What is the fiduciary’s share or beneficiary’s share of income?

The fiduciary’s share of an item of income (including any allowable deduction) is that amount required to be taken into account in computing fiduciary taxable income for federal income tax purposes for the tax year and is not paid, credited, or required to be distributed to the beneficiaries of the trust or estate for that year. The fiduciary’s share of each of the addition and subtraction items required under the IITA is that part of each item that relates and is attributable to the fiduciary’s share of the items of income and deduction.

The beneficiary’s share of each of the items is the amount that was properly paid, credited, or required to be distributed to the beneficiary for the tax year. The items of income and deduction and the additions and subtractions that are deemed to have been paid, credited, or distributed must be taken into account by the beneficiaries in proportion to their respective shares of the distributable net income.

When must I use Illinois Schedules K-1-T and D?

You must use **Illinois Schedule K-1-T** to supply each beneficiary with that individual’s or entity’s share of the amounts reported on your federal and Illinois tax returns. For Illinois Income Tax purposes, you must give a completed Illinois Schedule K-1-T and a copy of the **Illinois Schedule K-1-T(2)**, Beneficiary’s Instructions, to each beneficiary. **Do not** file Illinois Schedule K-1-T with your Form IL-1041. However, you must keep a copy of each Illinois Schedule K-1-T with your tax records.

Note: If you are a partner in a partnership or a shareholder in an S corporation, you should receive a completed **Illinois Schedule K-1-P** and a copy of **Illinois Schedule K-1-P(2)**, Partner’s or Shareholder’s Instructions.

You must use **Illinois Schedule D**, Beneficiaries’ Identification, to supply us with a listing of your beneficiaries. You **must** file Illinois Schedule D with your Form IL-1041.

Note: If you need Illinois Schedule K-1-T, see “What if I need additional assistance or forms?” for our phone numbers and addresses.

What if the trust makes an accumulation or capital gain distribution?

If the trust makes an accumulation distribution or a capital gain distribution (both as defined in IRC, Section 665), the portion of the distribution included in the income of a nonresident or part-year resident beneficiary (under IRC, Section 668 and 669) is taxable to the extent that the trust income was allocable to Illinois before distribution.

Note: You must complete Form IL-1041 itself. Do not send a computer printout with line numbers and dollar amounts attached to a blank copy of the return.

Every trust or estate subject to Illinois income and replacement tax must use the same accounting method (e.g., cash or accrual) and tax year that is used for federal income tax purposes.

A double deduction is prohibited by IITA, Section 203(g). You cannot deduct the same item more than once.

Part I — Computation of base income or loss

Specific instructions for most of the lines are provided on the following pages. Lines that are not discussed in the instructions are self-explanatory.

Line 1 — To determine the amount to write on Line 1 of Form IL-1041, complete the worksheet. This worksheet reports federal taxable income or loss without regard to any federal net operating loss deduction (FNOLD). To report net operating loss deductions, See Part I - specific instructions for Line 4g, and Part III - specific instructions for Line 1b.

See Schedule F for instructions. **Attach Schedule F and a copy of U.S. Schedule D, U.S. Form 4797, and U.S. Form 6252, if filed.**

Line 4b — Write the federally taxed portion of any qualified distribution received from

- the redemption of U.S. Retirement Bonds. **Attach a copy of U.S. Form 1041, Page 1, and supporting schedule for Line 8.**

- gain on the sale or exchange of employer securities. Complete Form IL-4644, Gains from Sales of Employer's Securities Received from a Qualified Employee Benefit Plan, to compute the subtraction. **Attach Form IL-4644 to your Form IL-1041.**

Note: You must notify each beneficiary of his or her share of any amount included on Line 4b, Column B, that is attributable to a capital gain distribution or to a gain realized on the disposition of employer securities. You must also advise the beneficiary that his or her share of any such amount is to be reported **only** if he or she is limiting capital gain on the disposition of property acquired before August 1, 1969, on Schedule F. If the beneficiary is an individual, he or she will include the amount on Form IL-1040, Schedule F, Step 3, Line 13. If the beneficiary is a trust or estate, the fiduciary will include the amount on Form IL-1041, Schedule F, Line 14.

Line 4c — Write the total interest received or accrued from U.S. Treasury bonds, notes, bills, federal agency obligations, and savings bonds that is included in the federal taxable income. You may **not** subtract anything that is not identified in Illinois Publication 101, Income Exempt from Tax. This amount is net of any bond premium amortization deducted federally.

Line 4e — Write the enterprise zone or foreign trade zone/sub-zone dividend subtraction from Illinois Schedule 1299-B, Enterprise Zone and Foreign Trade Zone/Sub-Zone Subtractions, Part I, Line 4. **Attach Illinois Schedule 1299-B to your Form IL-1041.**

Line 4f — Identify each of the following subtractions in the space provided on the form. You may **not** subtract anything that is not identified below or in Illinois Publication 101. Write the total of

- the refund of Illinois income and replacement tax for a prior year, to the extent included in your federal taxable income.
- any income included on Part I, Line 3, exempt from taxation by Illinois by reason of its Constitution or statutes or by the Constitution, treaties, or statutes of the United States. This amount is net of any bond premium amortization deducted federally. For further information, see Illinois Publication 101.
- your distributive share of subtractions passed through to you by any partnership, S corporation, trust, or estate that

you were either a partner, a shareholder, or a beneficiary.

Note: The partnership or the S corporation is required to send you an Illinois Schedule K-1-P and the trust or estate is required to send you an Illinois Schedule K-1-T, specifically identifying your share of subtractions.

- the expenses relating to federally tax-exempt investments such as state or municipal bonds that were disallowed as federal deductions because of IRC, Section 171(a)(2), 265(a)(1), or 265(a)(2). Effective for tax years **ending on or after August 13, 1999**, you may also subtract IRC, Sections 265 and 280C amounts.
- the amount equal to the deduction used to compute the federal tax credit for restoration of amounts held under claim of right under IRC, Section 1341.
- income from the Illinois Prepaid Tuition Trust Fund that is included in Part I, Line 3, except for the federally taxed distributions that you did not spend in accordance with the provisions of your tuition contract.
- any income included in Part I, Line 3, that is exempt from taxation by Illinois statutes other than the IITA. For further information, see Illinois Publication 101.

Line 4g — Write your federal NOL carryforward from loss years ending **prior to** December 31, 1986, to the extent of Illinois base income (Line 3 minus the sum of Lines 4a through 4f), and to the extent not previously used against Illinois base income. Do not write an amount on Line 4g that exceeds Line 3 minus the sum of Lines 4a through 4f. Any federal NOL carryforward used in this manner may not be used a second time to obtain a double benefit for Illinois purposes. Unused loss may be used in subsequent years.

Line 5 — Subtract Line 4 from Line 3. Trusts and estates that are residents of Illinois should also write this amount on Part III, Line 1. The base income of a resident trust or estate is not subject to allocation or apportionment. The entire amount is allocated to Illinois under the provisions of the IITA. Trusts and estates that are nonresidents of Illinois must complete Form IL-1041, Schedule NR, before completing Part III.

Part II — Computation of total tax

Complete Parts III and IV before you complete Part II.

Line 4 — You may claim on this line the total of

- any Illinois income tax withheld on wages and salaries (of a decedent) that were received by the fiduciary (attach Form W-2);

- any tax paid with Form IL-505-B. If you had an additional federal extension beyond six months, you **must** attach a copy of your **approved** federal extension to your return;
- any estimated payments you made with Form IL-1120-ES; and
- any 1999 overpayment credited to 2000 tax.

Line 5 — Follow the instructions on the form. This is your overpayment. Your refund will not be issued if you do not file a processable return.

Note: Your refund or credit carryforward may be reduced by us to satisfy any unpaid tax, penalty, and interest due for this year or any preceding year. If we reduce your credit carryforward, it may result in a late-payment penalty in the succeeding year.

Line 6 — Follow the instructions on the form. This is your amount of tax due that must be paid in full if \$1 or more. Note: For Column 3, Lines 1 and 2, interest and dividend income classified as nonbusiness income is not allocable to Illinois. However, interest and dividend income classified as business income is apportioned to Illinois by the entity. If you received an Illinois Schedule K-1-P or K-1-T, see Illinois Schedule K-1-P(2) or K-1-T(2) instructions for the amounts to include on these lines.

Note: For definitions of business and nonbusiness income allocable to Illinois see General Information, "Definitions to help you complete your Form IL-1041."

Column 5 — Combine the amounts shown in Columns 3 and 4 and write the result in Column 5.

Part II — Business income apportionment formula

How is the apportionment factor figured?

For tax years **ending on or after December 31, 2000**, the apportionment factor is figured using only the sales factor.

Who must complete Part II?

You must complete Part II if the trust or estate derived business income or loss from both inside and outside of Illinois. The apportionment factor is applied to items of business income or loss in Part I, Column 2, to determine the amount of business income or loss apportionable to Illinois. The apportionment factor is also used to apportion business income or loss on Illinois Schedule K-1-T for each beneficiary.

Line 1 — Write your total sales everywhere.

Line 2 — Write your total sales inside Illinois.

Include gross receipts from the license, sale or other disposition of patents, copyrights, trademarks, and similar items of intangible personal property in the numerator and denominator of your sales factor only if the gross receipts are more than 50 percent of the total gross receipts included in gross income for this tax year and each of the two immediately preceding tax years.

Do not include the following items of income in the numerator or denominator of your sales factor:

- dividends;
- amounts included under IRC, Section 78;
- subpart F income as defined in IRC, Section 952; and
- any item of income excluded or deducted from base income.

Sales of tangible personal property are in Illinois if

- the property is delivered or shipped from anywhere to a purchaser in Illinois, other than the United States government, regardless of the f.o.b. point or other conditions of the sale;
- the property is shipped from Illinois to any place and the purchaser is the United States government;
- the property is shipped from Illinois to another state and you are not taxable in the state of the purchaser or you did not file a tax return in the state of the purchaser; or
- your salesperson operates out of an office in Illinois, and the property sold by the salesperson is shipped from a state in which you are not taxable, to a state in which you are not taxable.

Gross receipts from the licensing, sale, or other disposition of patents, copyrights, trademarks, and other similar items of intangible personal property are in Illinois to the extent the item is used in Illinois during the year the gross receipts are included in gross income. An item is used in Illinois if

- a patent is employed in production, fabrication, manufacturing, or other processing in Illinois or if the patented product is produced in Illinois.
- copyrighted material is printed or other publications originated in Illinois.
- the commercial domicile of the licensee or purchaser of a trademark or other item of intangible personal property is in Illinois.

Note: If you cannot determine from your books and records (or the books and records of a related person) in which state an item is used, do not include the gross receipts from that item in the numerator or the denominator of the sales factor.

Sales, other than sales of tangible personal property, or gross receipts from the licensing, sale, or other disposition of patents, copyrights, trademarks and similar items of intangible personal property, are in Illinois if

- the income-producing activity is performed in Illinois; or
- the income-producing activity is performed both inside and outside Illinois, and a greater proportion of the income-producing activity is performed inside Illinois rather than outside Illinois, based on performance costs.

Line 3 — Divide Line 2 by Line 1 and write the result, carried to six decimal places. This is your apportionment factor.

Part III — Compute your standard exemption

You are entitled to deduct a standard exemption in computing net income. The amount of the standard exemption is \$1,000, multiplied by a fraction, the numerator is your base income allocable to Illinois for the tax year and the denominator is total base income for the tax year. To determine the allowable standard exemption, complete Schedule NR, Part III.
