Schedule UB/INS Instructions

General Information

What is the purpose of Schedule UB/INS?

The purpose of Schedule UB/INS, Tax for a Unitary Business Group with Foreign Insurer Members, is to allow your foreign insurer members to possibly reduce the unitary group's Illinois income and replacement tax liability. Effective for tax years ending on or after December 31, 1999, if a member of your unitary group is a foreign insurer, whose state or country of domicile imposes a retaliatory tax on insurers domiciled in Illinois, you should complete this schedule to determine if it would reduce your unitary group's tax liability. The rates are reduced to the point that the total Illinois tax imposed equals the tax the state or country of domicile would impose on the amount of your foreign insurer members' Illinois net income.

=Note→ This reduction in rates does not apply to an insurer that is primarily a reinsurer. If 50 percent or more of a foreign member's total insurance premiums for the tax year are from reinsurance, treat that member as a domestic member on this schedule.

The reduction in tax rates cannot reduce the total of your foreign insurer members' income and replacement taxes, privilege tax, fire insurance taxes, and fire department taxes below 1.75 percent of your foreign insurer members' premiums subject to privilege tax. The rate reduction is applied against income tax first. Once your group's income tax is reduced to zero, the rate reduction is applied against your group's replacement tax.

Specific Instructions

Note → You must complete Steps 1 through 7 of your Form IL-1120, Corporation Income and Replacement Tax Return, and all steps of Schedule UB, Combined Apportionment for Unitary Business Groups, before completing Schedule UB/INS. Use additional Schedules UB/INS if you have more than three foreign insurer members.

Step 1 is used to determine each foreign insurer member's share of the total tax liability and credits of the unitary business group.

Step 2 is used to report the income tax (or other tax based on net income) the state or country of domicile would impose on each foreign insurer member's Illinois net income.

This is figured by using the total of all tax measured by net income, less credits, imposed by the foreign insurer member's state or country of domicile, on an insurance company with base income (before apportionment) equal to the foreign insurer member's share of base income on Line 24 and net income (after apportionment) equal to the foreign insurer member's share of net income on Line 23.

Step 3 is used to figure your foreign insurer member's 1.75 percent income tax reduction limit.

Step 4 is used to determine whether a foreign insurer member's liability can be reduced and, if so, the level to which the liability is reduced. This section determines the total liabilities and credits of all foreign members.

Steps 5 and 6 are used to determine all the domestic members' share of the total tax liability and credits of your unitary group. These amounts are added to your foreign insurer members' tax liabilities and credits to figure your unitary group's total tax liability and credits.

What must I attach to Schedule UB/INS?

For each foreign insurer member for whom you did not check the box on Line 25, you must attach a pro forma return from that member's state or country of domicile, showing the amount of tax that member would owe to that state or country on its share of your unitary group's Illinois net income.
