Read this information first - We encourage you to let us figure your penalties and send you a bill, instead of completing this form yourself. You must complete this form if you are using the annualized income installment method for late-payment penalty for underpayment of estimated tax in Step 6.

You do not owe the late-payment penalty for underpayment of estimated tax if you made timely estimated payments equaling at least 90 percent of this year's tax liability or 100 percent of the prior year's tax liability (provided you reported a liability in the prior year and it was not a short taxable year). The late-payment penalty for underpayment of estimated tax is based on the tax shown due on your original return. Do not use the tax shown on an amended return filed after the extended due date of the return to compute your required installments in Step 2.
