

Schedule 4255 Instructions

Who must file?

Taxpayers who claimed an Enterprise Zone or River Edge Redevelopment Zone, High Impact Business, or Replacement Tax Investment Credit —

You **must** file Schedule 4255, Recapture of Investment Credits, if you claimed an investment credit against your Illinois income or replacement tax liability in a previous year and any of the property considered in the computation of that investment credit becomes disqualified.

You must recapture any such investment credit in the year in which the property becomes disqualified (to the extent the credit was actually used in any previous year). Use this form to figure the amount of recaptured credit that you must add to this year's tax liability. You **must** complete and file a **separate Schedule 4255** for each tax year in which the now disqualified property was placed in service, beginning with the earliest year. Each Schedule 4255 should report only items placed in service during the same tax year you entered at the top of the form. You **cannot** amend a previous year's return in order to exclude the disqualified property. **Attach all completed Schedules 4255 to your return.**

Taxpayers who claimed an Angel Investment Credit —

You **must** file Schedule 4255 if you claimed an Angel Investment Credit against your Illinois income tax liability in a previous year and are required to recapture the credit. See "When am I required to recapture an Angel Investment Credit?" for more information.

You must recapture any such investment credit (to the extent the credit was actually used in any previous year) in the year in which the recapture event took place (see "When am I required to recapture an Angel Investment Credit?"). Use this form to figure the amount of recaptured credit that you must add to this year's tax liability. If you attach multiple Schedules 4255 because you are required to recapture other investment credit amounts from multiple years, you **must** complete Step 5 only on the last succeeding Schedule 4255 completed. If you have recapture amounts to report for multiple Angel Investment Credits (including credits claimed in multiple years), include them all in the amounts reported in Step 5 on the last succeeding Schedule 4255 you complete. You **cannot** amend a previous year's return in order to exclude the credit you are required to recapture.

Attach all completed Schedules 4255 to your return.

Note For tax years ending on or after December 31, 2000, investment credits earned by you and allocable to your partners and shareholders subject to replacement tax automatically flow through to those partners and shareholders. The amount allocable to other partners and shareholders remains with you.

Partners and shareholders **are required** to report any recapture on their respective returns. You **must** attach Schedule 4255 to your return and provide a copy to your partners or shareholders.

When does property cease to qualify?

Enterprise Zone or River Edge Redevelopment Zone Investment Credit — Property ceases to qualify if, within 48 months of placing it into service, you dispose of the property, convert it to personal use, or move it outside an Illinois enterprise zone or river edge redevelopment zone.

High Impact Business Investment Credit — For tax years ending on or before December 31, 1996, property ceases to qualify if, within 48 months of placing it into service, you dispose of the property, convert it to personal use, or move it outside of Illinois. For tax years ending on or after January 1, 1997, if you entered into an agreement with a taxing district and were granted a tax abatement and you relocate your entire facility in violation of the terms and length of the contract under Section 18-183 of the Property Tax Code, you must recapture the amount of credit previously received under the agreement.

Replacement Tax Investment Credit — Property ceases to qualify if, within 48 months of placing it into service, you dispose of the property or move it outside of Illinois. In addition, property placed in service prior to January 1, 1994, becomes disqualified if it is used for purposes other than manufacturing, retailing, coal mining, or fluorite mining within 48 months after being placed in service. Property placed in service on or after January 1, 1994, also becomes disqualified if it is converted to personal use, or if you are no longer primarily engaged in manufacturing, retailing, coal mining, or fluorite mining.

Note Property is "disposed of" if it is sold, exchanged, traded-in, abandoned, retired from use, destroyed by casualty, stolen, or transferred as a gift. Property is not "disposed of" if it is mortgaged or used as security for a loan, unless it is converted to a non-qualifying use.

When am I required to recapture an Angel Investment Credit?

You are required to recapture an Angel Investment Credit you claimed in a prior tax year if, during this tax year, you disposed of your investment in the qualified new business venture for which you claimed the credit or the business venture moved from the State of Illinois, and the disposition or move occurred within three years after you made your qualifying investment in that business.

Should I round?

You must round the dollar amounts on Schedule 4255 to whole-dollar amounts. To do this, you should drop any amount less than 50 cents and increase any amount of 50 cents or more to the next higher dollar.
