Please update your allocation information.

The Department updates registration information based on input from taxpayers, auditors, collectors and other Department employees. Because there has been activity on taxpayer accounts within your jurisdiction during the last month, we have attached a detailed list for your review. Your verification ensures that your taxing jurisdiction receives proper allocation of tax revenue.

<(Print if applicable for business district) **Note:** Your municipality has an established business district which applies to retailers located within a designated area. We have included the business district name when applicable.>

We encourage you to verify this information online at mytax.illinois.gov/MyLocalTax using the "I want to" links "Respond to Tax Location Verification" or "Verify Tax Locations." If the information for a given business is incorrect, you must manually update the information. In addition, users will be able to view/print prior correspondence, request/receive reports, submit inquiries, and request updates to their accounts.

If corrections are needed, please log in to MyLocalTax to make the corrections within 20 days from the date of this letter. Failure to respond timely could cause allocations to be incorrectly dispersed. Though MyLocalTax is preferred, you may also make the corrections on the attached list and return it to the address listed below.

Note: We include a listing of locations that have been verified by the Local Tax Allocation Division (LTAD) to be within your taxing jurisdiction. No action is required on those sites, unless a discrepancy is found. If you believe a location that we have verified is actually not within your taxing jurisdiction, please contact us immediately either directly through MyLocalTax, or at the contact information listed below.
