To: Registered retailers of aviation fuel in taxing jurisdictions whose tax rate is changing

Local government units are required to certify to the Illinois Department of Transportation by April 1 each year whether they have an “airport-related purpose” (35 ILCS 120/2-22). This certification allows the retailers’ occupation tax and service occupation tax imposed by the local government and administered by the Illinois Department of Revenue (IDOR) to include tax on aviation fuel. This informational bulletin provides a list of the changes in local sales tax rates on aviation fuel that take effect in certain taxing jurisdictions on July 1, 2025, due to the certification requirement.

You must adjust your cash register and any computer program so that beginning on July 1, 2025, you will collect and pay the correct tax for sales of aviation fuel.

To verify your new tax rate for sales of aviation fuel, go to the **MyTax Illinois Tax Rate Finder** at mytax.illinois.gov and select rates for July 2025.
