
COMPLIANCE ALERT

November 2010

This Compliance Alert has been superseded by enactment of Public Act 97-688 which, in part, implemented the Cigarette Machine Operators' Occupation Tax Act, effective August 1, 2012. For up-to-date information, please see Informational Bulletin FY 2013-01, Roll-Your-Own Cigarettes License and Tax Requirements.

Compliance Problem

As consumers are seeking to reduce the cost of cigarettes, businesses are acquiring on-premise machines that use loose tobacco and cigarette paper or tubes to produce cigarettes. There are numerous laws that must be followed.

Solution

There are significant requirements for a retailer who owns, leases or operates on-premise cigarette production equipment, namely;

- 1 — Obtaining both cigarette manufacturer and cigarette distributor licenses from the Department of Revenue.
- 2 — Assuring that all cigarette packages have the appropriate tax stamps.
- 3 — Meeting state and federal labeling requirements.
- 4 — Obtaining certification from the Illinois Attorney General of compliance with the Master Settlement Agreement.
- 5 — Obtaining certification from the Illinois State Fire Marshall of compliance with the Illinois Cigarette Fire Safety Standards Act.

Background

There are substantial tax and regulatory requirements imposed on cigarettes that are not avoided by utilizing on-premise production equipment.

Did you know?

The United States Department of Treasury, Alcohol and Tobacco Tax and Trade Bureau issued a ruling September 30, 2010, relating to cigarette-making machines in retail establishments. TTB RUL. 2010 — 4.

Where can I get more information?

The Illinois Department of Revenue has published several resources to assist taxpayers. Some suggestions of items you might wish to research or read include:

- ✓ General Inquiry Letters,
- ✓ Legal Letter Rulings,
- ✓ Informational Bulletins, and
- ✓ Publications.
